

Ventilation Vents

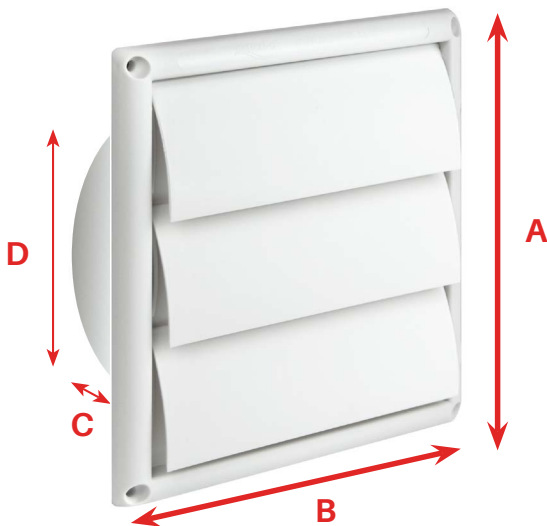

PolyProp Plastic Gravity Louvre Vent

HSR4W, HSR5W, HSR6W & HS8W

The HSR range, allows air to be released by opening the Louvres and closing when not in use. The Louvres are specially manufactured in a curved shape to assist in keeping the vent closed during wind, drafts and prevents pests from entering the system.

The Gravity Louvre Vent is made of UV resistant polypropylene plastic to withstand the Australian climate.

Key Benefits

- Rounded edges with mounting holes in each corner
- 25mm deep rear spigot for ducting attachment
- Suitable for through the wall ventilation only

Dimensions (mm)

Model No.	A	B	C	D
